The amounts in this column give the *pro rata* of gross premiums for the unexpired terms of all policies of the several companies in force at December 31, 1905, as provided by the statutes in that behalf. Upon the assumption that adequate premiums have been collected these amounts may be regarded as considerably in excess of the sums which would ordinarily be required to pay the losses to accrue under outstanding risks, a fact which may properly be taken into account in the case of individual companies in considering questions of actual or probable as distinguished from *legal* surplus, declaring dividends, impairment of capital and other cognate subjects.

The capital stock of this Company which had previously been \$500,000 the whole of which was subscribed and \$125,000 paid thereon was by chapter 83 of the Statutes of 1904 reduced to \$250,000, the amount paid up remaining unchanged. An additional \$125,000 was paid in out of surplus in 1905, making the capital fully paid up.

The paid up capital of this company which had previously been \$1,000,000 was under the provisions of chapter 51 of the Statutes of 1904 reduced to \$500,000 and there was then authorized an issue of new stock to the amount of \$500,000, of which at the date of the statement \$350,000 had been subscribed and calls to the amount of \$148,226.54 had been paid thereon, making the total paid up \$848,226.54 as given above.

The paid up capital of this Company which had been previously been \$2,000,000 was under the provisions of chapter 141 of the Statutes of 1904 reduced to \$1,000,000, and the company then authorized the issue of \$1,000,000 new stock of which \$500,000 had, at the date of the statement, been subscribed and paid up, thus making the total paid up capital \$1,500,000 as given above.

\$150,000 was paid into the Capital Stock of this Company during the year 1904 and under the provisions of chapter 110 of the Statutes of 1904 the paid up capital was reduced to \$100,000, the same amount at which it stood at the end of 1903. The subscribed capital was reduced from \$500,000 to \$250,000.

In addition to the securities included in the above market value, the Company owns certain common stocks, to the par value of \$65,000, received as bonuses in connection with bond holdings. No market value has been assigned to these securities.

In addition to the securities included in the above market value, the Company owns a considerable amount of common stocks and other securities, most of them obtained as bonuses in connection with purchases of bonds. The Company states that it would be difficult to assign as yet any market value to such securities, and that it prefers to wait until their value shall have become better established. The Company further states that all such securities are checked and audited in exactly the same manner as the others owned by it.

The amounts in this column give the *pro rata* of gross premiums for the unexpired terms of all policies of the several companies in force at December 31, 1905, as provided in the statutes in that behalf. Upon the assumption that adequate premiums have been collected these amounts may be regarded as considerably in excess of the sums which would ordinarily be required to pay the losses to accrue under outstanding risks, a fact which may properly be taken into account in the case of individual companies in considering questions of actual or probable as distinguished from *legal* surplus, declaring dividends, impairment of capital and other cognate subjects.
